

Only at an Airport!!!

Not your every day calls.

Gary Shoemaker, EMT-P

BWI Airport Fire & Rescue
Department

Cessna 150 into power lines

Plane hit by the wake of a jetliner at an airport. It lost power and hit the lines. No injuries and plane was lowered with minor damage.

Uncontrolled engine fire

Cater truck

The operator forgot
to lower his
outriggers...

747 nose gear failed

Container into engine

The container was blown into the idling engine of this aircraft by the jet blast of another aircraft.

Lost brakes

Both of these aircrafts had their incidents as a result of ground crews not using parking brake...

Lost brakes

Lost brakes

Lost brakes

This aircraft was being moved by workers, under power, when it lost its brakes.
