clerk of court - file in case

Case #10-1457

Trial Court #09-CR-13 USDC Colorado

On behalf of the honor of the court I am compelled to let you know that Ronald Roy HOODENPYLE was influenced by a religious zealot into believing that he had nothing to worry about, that he would be given a special ID card from The Hague and especially pertinent, he was assured that his negative averment lien held the authority to recuse any and every judge presiding over his cases for Conflict of Interest. The format I have chosen is to put this document to disk so that you can click the embedded links and be edified by a brief, or extensive Internet exploration, as you choose. Ronald Roy is my friend, albeit he was upset with me over recording our conversation one day during church, where I record the sermons. The first time I caught our conversation Ron was offering me a writ of judgment from a Colorado grand jury and it struck me unusual that he was promising me an authorized writ ahead of hearing the matter and when I asked him where I could find the rules of court to prepare my pleadings, he became confused and uncertain. I deleted that conversation pursuant to traditional privacy reasons but on August 1, 2010 I inadvertently caught Ron in another conversation and his folie a deux had grown so delusional that I could not delete the evidence, as it was just too convincing a tool for future use, like this petition. Furthermore my observation is that the religious zealot, James Timothy TURNER current President of the United States of America (see?) has been turning an intelligence mill for the FBI and DoJ, which mill (recent example video) is becoming too dangerous to be of use and needs to be shut down.

Should you rule to uphold the trial court please remand Ron back to KRIEGER with a Recommendation to release him immediately on the Close Supervision stipulation as though he has served his prison time.

Let me show you what trying to talk sense to these people in the (no surveyed boundaries) *Republics* is like. This is an email response from Nathan PEACHEY, chief justice of their national *our one supreme court*.

David

I do not read your emails anymore. Consider using your time to do something worthwhile...By the sweat of your brow labor with thy hands so that you have to give to those in need.

Your email address is directed to my trash folder to where it is deleted with the spam without reading.

If you decide to get rid of the Spirit of the Lie within your Soul and repent to Tim Turner for spreading lies, propaganda and false accusations then we will read your emails again.

Bye

Nathan

I find it disturbing that I am commanded to repent to Tim instead of Jesus – albeit the latter would be mildly annoying.

I will be giving you a bigger picture of what is developing over the internet on the thumb drive included but want the Tenth Circuit justices to focus on one point only about Ron's legal troubles and imprisonment. Tim TURNER went into this project – RAP/RuSA is what I am calling it these days – after spending some time lecturing about admiralty process negative averment liens. Tim claims to be speaking with Presidents and Princes worldwide, I doubt he would find any willing to fund him to overthrow the US government. By looking into the lien process, some of which are enormous it becomes obvious that Tim is banking on trafficking these in order to draw marks that keep him going until something breaks open for him, if ever. This is what Ronald Roy became victim of. Mainly though I want you to understand that Tim allowed or terminated his own liens in February and by not telling his officials and Ronald Roy that has allowed those who adhere to his process to think that these instruments are fungible, which skewed Ron's defense wildly. In other words, if Ron had known that Tim held no faith or credit in the process, Ron would not have either. That sums it up for you, from an appeal/*amicus curiae* perspective. From here it is a link library tour of RAP/RuSA.

RAP is for *Restore America Plan* and RuSA is for *Republics of the united States of America*. You may remember RAP from earlier this year for threatening State governors across the USA with this Unanimous Declaration. In Colorado at that time, disgruntled sentiment mustered some thirty jurists for that signing in Denver. Ron being part of that assembly was speaking of that same assembly promising me my writ of enforcement or judgment.

First off I want you to become familiar with my voice and Ron's. In this snippet there are three points I hope you find affective in Ron's appeal.

- 1) I tell Ron I have no faith in the negative averment, he responds quite honestly that he does,
- 2) He speaks on about how these negative averments will be funding a worldwide Christian ministry in the near future,
- 3) He indicates Tim and RAP/RuSA are telling him not to worry about prison and his other court troubles.

I have been inquiring of maybe thirty officers, mostly located on this redistribution page about Tim revealing that his liens had been terminated, and most of them seem to believe in some form or fashion that God is behind Tim and are unaware of the negative averment process at all. They think Tim has international and military support because Tim says so with confidence on weekly conference calls etc. I am confident that Tim has told nobody – as of last night, New Year's Eve his chief justice told me that it might be true.

David Merrill

Regarding the fact that Tim Turner released his lien may be true but the fact that you strongly suggest( like if it is true) that he was kept in military lockdown and under CIA and FBI interrogation...is false.

It is quite evident that the Spirit of the Lie lives within your Soul and desires to destroy and destruct.

I would suggest you have a "Come to Jesus Meeting" before you write any more letters and emails.

nathan

I seem to have produced convincing evidence by recording the conversation last week with the Alabama secretary of state. This file with Doc 28 and 29's attachments is what I used for reference during the phone call. To establish that Ron was using Tim's negative averment process, on August 1<sup>st</sup> his estimation was that penalties had accrued \$1T value, view Tim's and Ron's liens. For more details about Tim's liens click here.

In American cyberspace, there is a *folie a deux* growing in disturbing proportions. RAP/RuSA seems to be able to protect itself by being a quasi-secret society, however it cannot grow without exposing itself to the Internet public. My broadcasts have no doubt caused a great deal of damage to confidence and security building measures but there is such dissatisfaction with the economy and Obama Administration that Tim's compendium of patriot mythology easily turns people to him and against the *de facto corporation*. I will be including links and files liberally on the thumb drive so forgive me for peppering this tour with only the more recent and pertinent links.

This video is from last week, I call it the *Christmas Fireside Chat*. At first they thought it important enough to autoplay for anybody coming to the website so scroll down to the video and see Tim and Nathan boasting of military support and that they have already won. Recently RAP/RuSA started selling ID Cards for \$125/Card. These are national ID Cards, Travel Warrants and Ranger ID Cards. Nathan boasted that the Ranger ID Cards carry authority to arrest sitting judges. The Travel Warrants carry a guarantee that there will be setoff in *Equity*, in case there is an incident (ticket or traffic accident). This is a photo of the mail drop, granted it is actually near the capital building in Carson City, Nevada. I do not believe that they are actually generating the physical cards (scam) but there are reports on the blogs that the police are honoring these Travel Warrants with verbal warning. In my layman opinion the Travel Warrant (*warrant* as in comptroller warrant) is forgery of a Comptroller Warrant back on RAP/RuSA and is therefore bereft for any setoff because Tim's liens, unless he can move Ron's lien, cannot provide the liquidity bond for driving without an insurance policy. In any event, he was to move the lien(s) first, prior to selling the cards in order to bond them. I will not bother here to try developing all the things wrong with this instrument.

Tim disappeared for a month as the *Request for Telephone Conference* joindered him into Hayward Jackson MIZELL's contempt of court in June. I believe that Tim tried to reissue the lien and was picked up, or maybe Tim was summoned to meet with FBI and DoJ. My gut feeling, without the tools to meddle investigating is that Tim was detained while the FBI and DoJ engineered RAP/RuSA as an intelligence mill to measure risk management around shutting RAP/RuSA down should it ever grow into a national threat. After a phone conversation leaked out, very damaging to Tim, the Cards went on sale and Nathan threatened judges we find Tim in another sit down with the FBI and DoJ with Tim's

holiday friends there, thinking that they had actually recruited the agents as their “guests”!

That phone conversation leak is an interesting lead-in to Tim’s promises about funding, which always are deferred by being unable to sell any of these negative averment liens. [By the way, I have noted that when Tim is uncertain or knows he is lying, his voice drops in volume especially on the money issue. You can hear how when he was talking about Ron and myself and the 8/1/10 recording that I had to amplify his voice by several times – especially to get, *That hurt us* (RAP/RuSA depending on Ron’s lien) *real bad*.] One party in that conversation is Carl SEDLAK of this building sale. Tim was boasting that RAP/RuSA had purchased the building and it would be the capital building for the Republics by giving Carl the title of Secretary of State. He managed to string Carl along with that title while paying out of pocket (Carl’s) \$30K/month maintenance. The other party on the line is Richard MURRAY who tried making arrangements for RAP/RuSA to recapture assets seized from DA SILVA by being DA SILVA’s agent with this Letter of Intent. Apparently Richard was frightened by the FBI earlier that day and Party 2 on the call picks up at the 2:00 Minute Mark, subconsciously confusing Carl momentarily but whoever it was remains silent. Richard is obviously disgruntled with RAP/RuSA but at the time I considered Party 2 to be the FBI and the leak to be designed to cull RAP/RuSA of tangential collusion and Innocents since the call was after the Cards went on sale and Nathan threatened sitting judges with the Rangers ID Cards; I just figured RAP/RuSA was being shut down. Tim got on the weekly conference call and smoothed things over, again. Now I think it was Richard taking a jab at Tim because the deal (DA SILVA Letter of Intent) never went down as Tim has been promising all year that the US Government and/or the economy will collapse and RAP/RuSA will arise.

All this is to convince you that my friend Ronald Roy is a victim of a charismatic charlatan who should have openly disclosed failure of his negative averment liens and process to Ron, long before our August 1<sup>st</sup> conversation. I even met his attorney Gary FIELDER and know first hand that Gary was heavily influenced by all the patriot mythology that Ron had bought into – especially dichotomizing US and sovereign citizens, and people from the de facto corporation c. 1871. I captured a Hollywood snippet expressing sentiment and parataxic distortion (juxtaposition) around USA Inc.’s charter to promote sporting events. Ronald Roy would likely have terminated all his lien process had this lack of confidence in process come to light. Granted the Equity Claim lien Ron was prosecuted for was from Derral SCHROEDER of southern Colorado, I hope that you are now convinced that Ron was counting on Tim’s negative averment lien process to save the day.

My recommendation upon consideration of these factors in Ron’s appeal, should you uphold the trial court, is that you remand the case to Judge KRIEGER with recommendation to maintain the conviction but reduce the sentencing to immediate Close Supervision beginning immediately. Additionally I hope you will consider the distortions in political thinking (that jural society with no surveyed boundary can compete with the territorial State for authorized government) propagated by RAP/RuSA and pursue some investigation as to why with forgery and threat to the domestic tranquility by Nathan

purporting authority to arrest sitting judges the FBI and DoJ pretend to be friendly and in support of RAP/RuSA. The only logic I make of it is that Tim is turning an intelligence mill. The cost of that mill is worth examining. A vast majority of the people drawn into this are simply victims of misunderstanding the lawful remedies available and they are of course victims of the Global Financial Crisis. They should not become victims of a *soft sting* operation from the same government they already distrust.

Respectfully,

  
David Merrill.

**Information**

This item seems to be a *pink elephant* on American history. It is obvious on the *Zapruder Footage* that the bullet slug to JFK's head came from the direction of the gunman, William GREER, the Secret Service driver pointing the pistol at the President's head. As shown in many documents the slug nearly missed but knocked off a large portion of the right side of his skull causing deflection to his left (opposite the slug being deflected off his skull) but mainly, when the slug strikes the deadly blow, JFK's head is thrown backward, away from William GREER the left-handed Secret Service driver pointing what looks convincingly like a pistol. Between frames you can even see the pistol raise the appropriate angle for recoil in a trained agent's hand.

The Zapruder footage I have used here is from a documentary about digitizing the original footage before it became too old to be useful. I am convinced you are watching what was on that original Zapruder footage. This 24 seconds of video at 88Mbytes of disk demonstrates that I have presented the clearest and closest rendition of the Zapruder footage you will find short of the documentary I copied it from.

Here is a supplemental video off the Internet where we see that the Secret Service waved off two agents who were assigned to ride on the steel supports on the back of the vehicle. Most importantly to note is that the driver assigned to the right stand would have interfered with the rifleman's (first of the two) shot at the President. Watching GREER carefully we see him inspect the President and he seems to surmise that he must pull his pistol and execute the head shot. It is confusing about the sniper or snipers taking one shot or two, and which one hit the Governor so please stay focused on the physics of the head wound.

Regards,

David Merrill.
