RE: David Myrland

To whom this may concern.

I have known David Myrland since 2004. Through the course of those years Dave and I have had many discussions and never once in any of those discussions have I ever found David to be violent or life-threatening to anyone. To the contrary, I found David to be a compassionate person of high moral integrity and a man who loves his country. Dave and I had discussed many times about what he believed was crimes being committed against him by public officials (trustees) for what he believed in.

David, as one of the holders of the inherent political power of the State of Washington was honestly doing his best to fight the corruption, he believed was going on inside his city government. I would think if we have more Americans like Dave Maryland who is concerned about honesty in government that he would be praised, in lieu of, getting arrested.

Many of us people around this country are praying for David's release, we pray that this Court will find compassion and released Dave immediately.

Thank you for your consideration, and God Bless America
