Holiday Airlines PA31 for the winter of 1981.

I failed to find any photos of the Holiday PA.31, so to get these flight plans in operation I have created a work of fiction based on Kurt Niedrauer's Holiday 1974 Electra.

Logo and titles used without permission as I have been unable to contact Kurt.

Because of this the texture are only available from RAI and will be removed if requested by Kurt.

If anyone finds a picture of a Holiday PA.31 please post the link on the forums at <http://www.retroai.org>.

Textures only for the DWAI PA.31.

You will need to have the base model installed

Holiday Airlines winter 1981 flight plans available at:- <http://www.retroai.org>

To install unzip the texture folders into relevant aircraft folder.

Then update the aircraft cfg file using the enclosed Add to aircraft.cfg file (updating the [fltsim.xx] to your next free numbers IE [fltsim.45] etc.
