# INSTANT ACTION THINKTANKS CONVERSION

# PC - INSTALLATION GUIDE

Thank you for downloading the Instant Action conversion, it is essential that you follow this guide exactly so that you install all the game files correctly, please don't rush the install. If you do not install correctly you will not be able to enter the game server. This install has been tested time and time again without any problems, if you find you cannot get into the game server please thoroughly check your installation in the first instance.

This installation guide will take you through the simple steps required to install the Instant Action files onto your machine. This guide is a sort of dummies guide so if you're not very computer literate please take your time and don't rush, I apologise to those of you who are computer literate for the detail of this guide.

*Should you choose to install these files, you do so at your own risk. We will take no responsibility whatsoever for any problems which may occur as a result of using these files.*
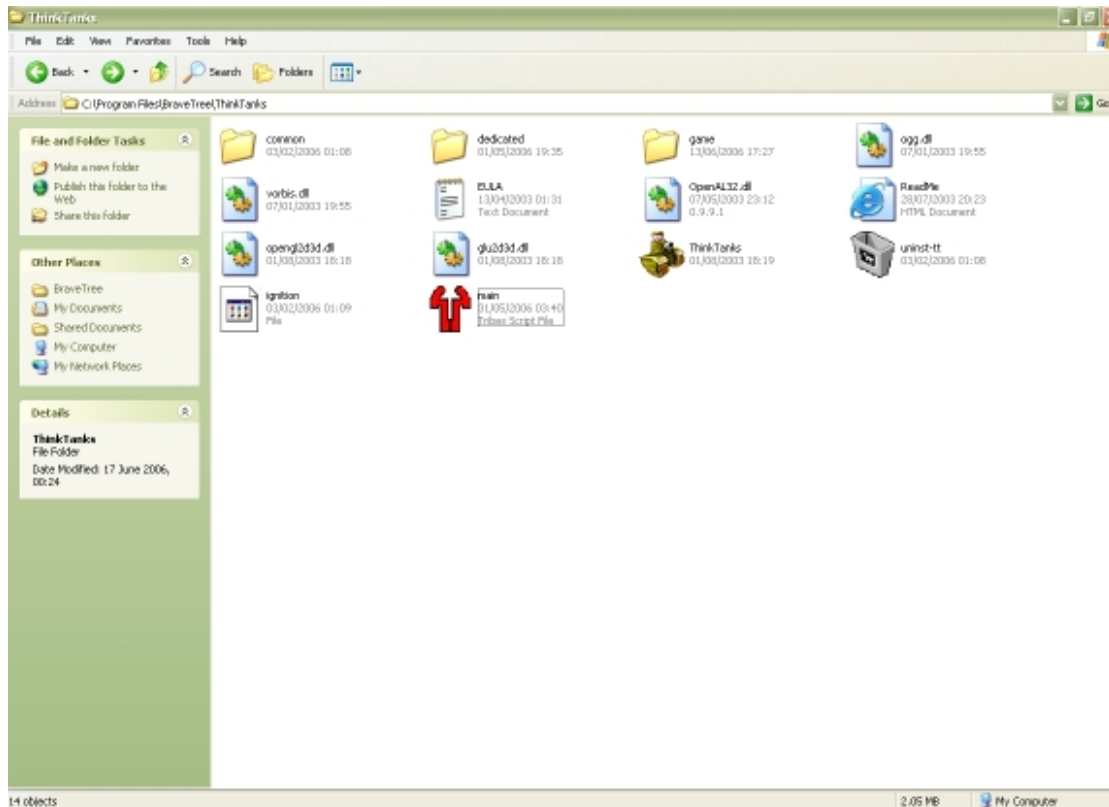

## Stage 1 – Get and Check Files

If you are reading this then you have successfully downloaded the Instant Action conversion preload and extracted the compressed/zip file. YOU MUST EXTRACT THE COMPRESSED/ZIP FILE BEFORE INSTALLING FILES. Once extracted you will see the following preload folders.

## Stage 2 – Find Your ThinkTanks Folder

Next step is to find you ThinkTanks folder. If you know where this is located great, if not follow the guidelines below.

- ➢ Go to My Computer and then double click on your main hard drive, usually this is drive (C:)
- ➢ Find the Programme Files folder and double click it
- ➢ The next step depends on where you bought your game from, if you bought it from BraveTree then find the BraveTree folder and double click it. The same goes for Shockwave and probably Real Arcade.
- ➢ Inside this folder will be your ThinkTanks folder, double click it and you should be looking at something like this.

Now you are here we can start to install the files. Keep this window open at all times during the installation as it will make it much easier for you to install the files.

## Stage 3 – Install the Files

******** MAKE A BACK UP OF YOUR THINKTANKS FOLDER ********
