Sector Report

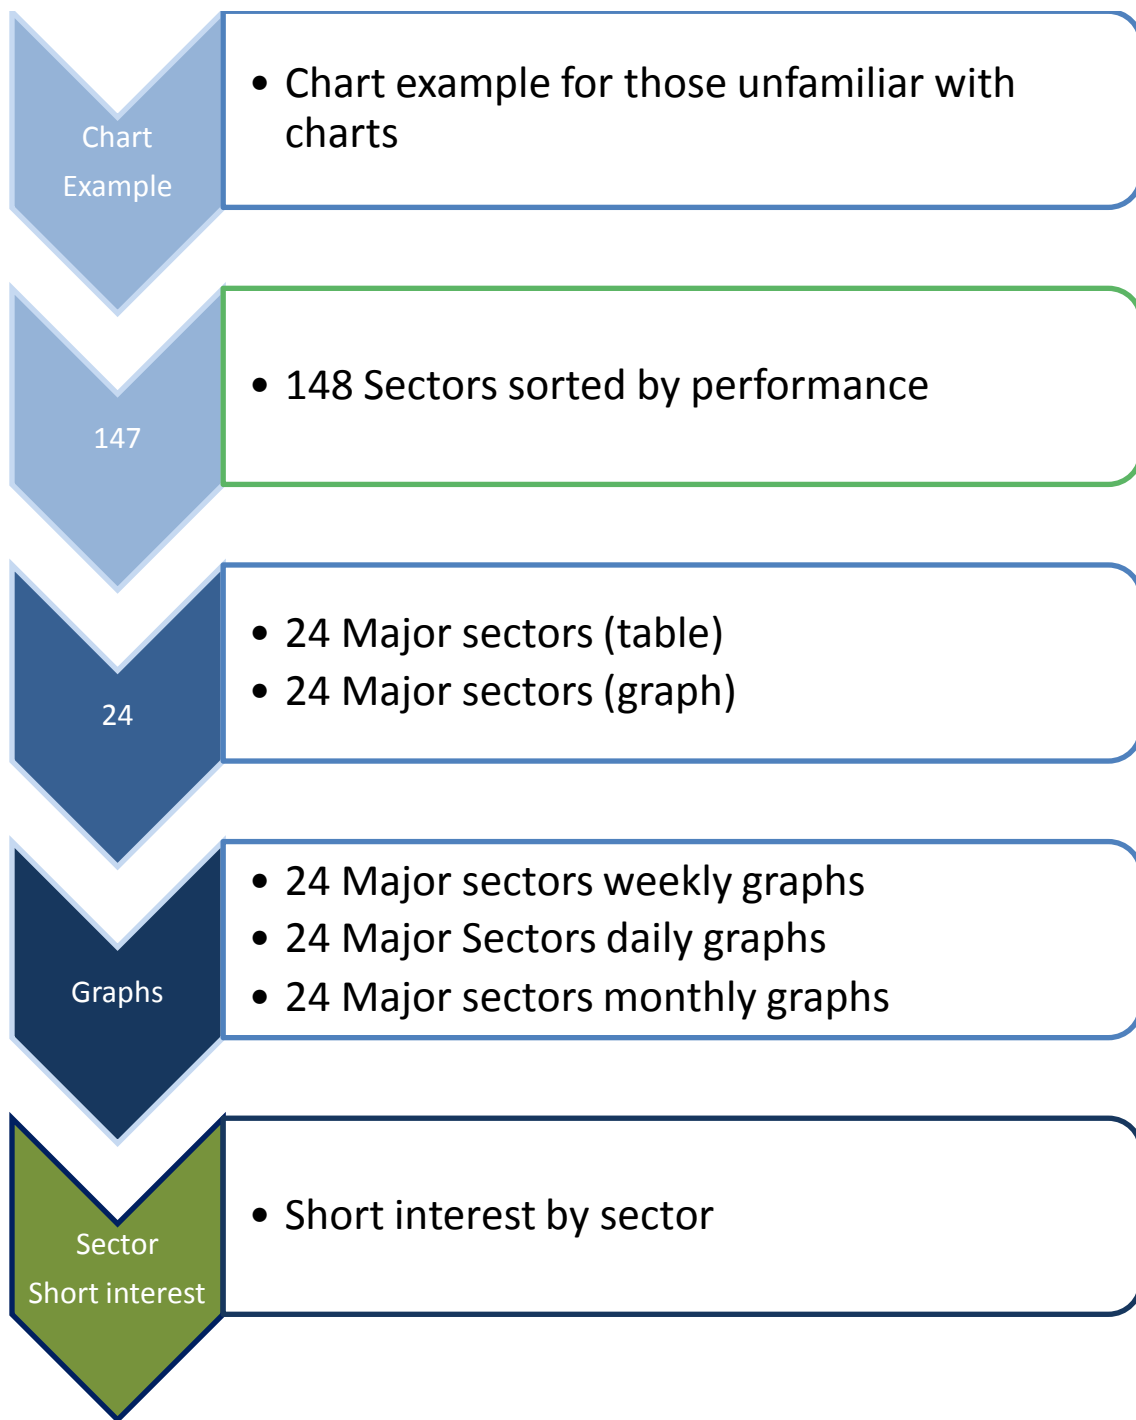

For week ending 10/29/10

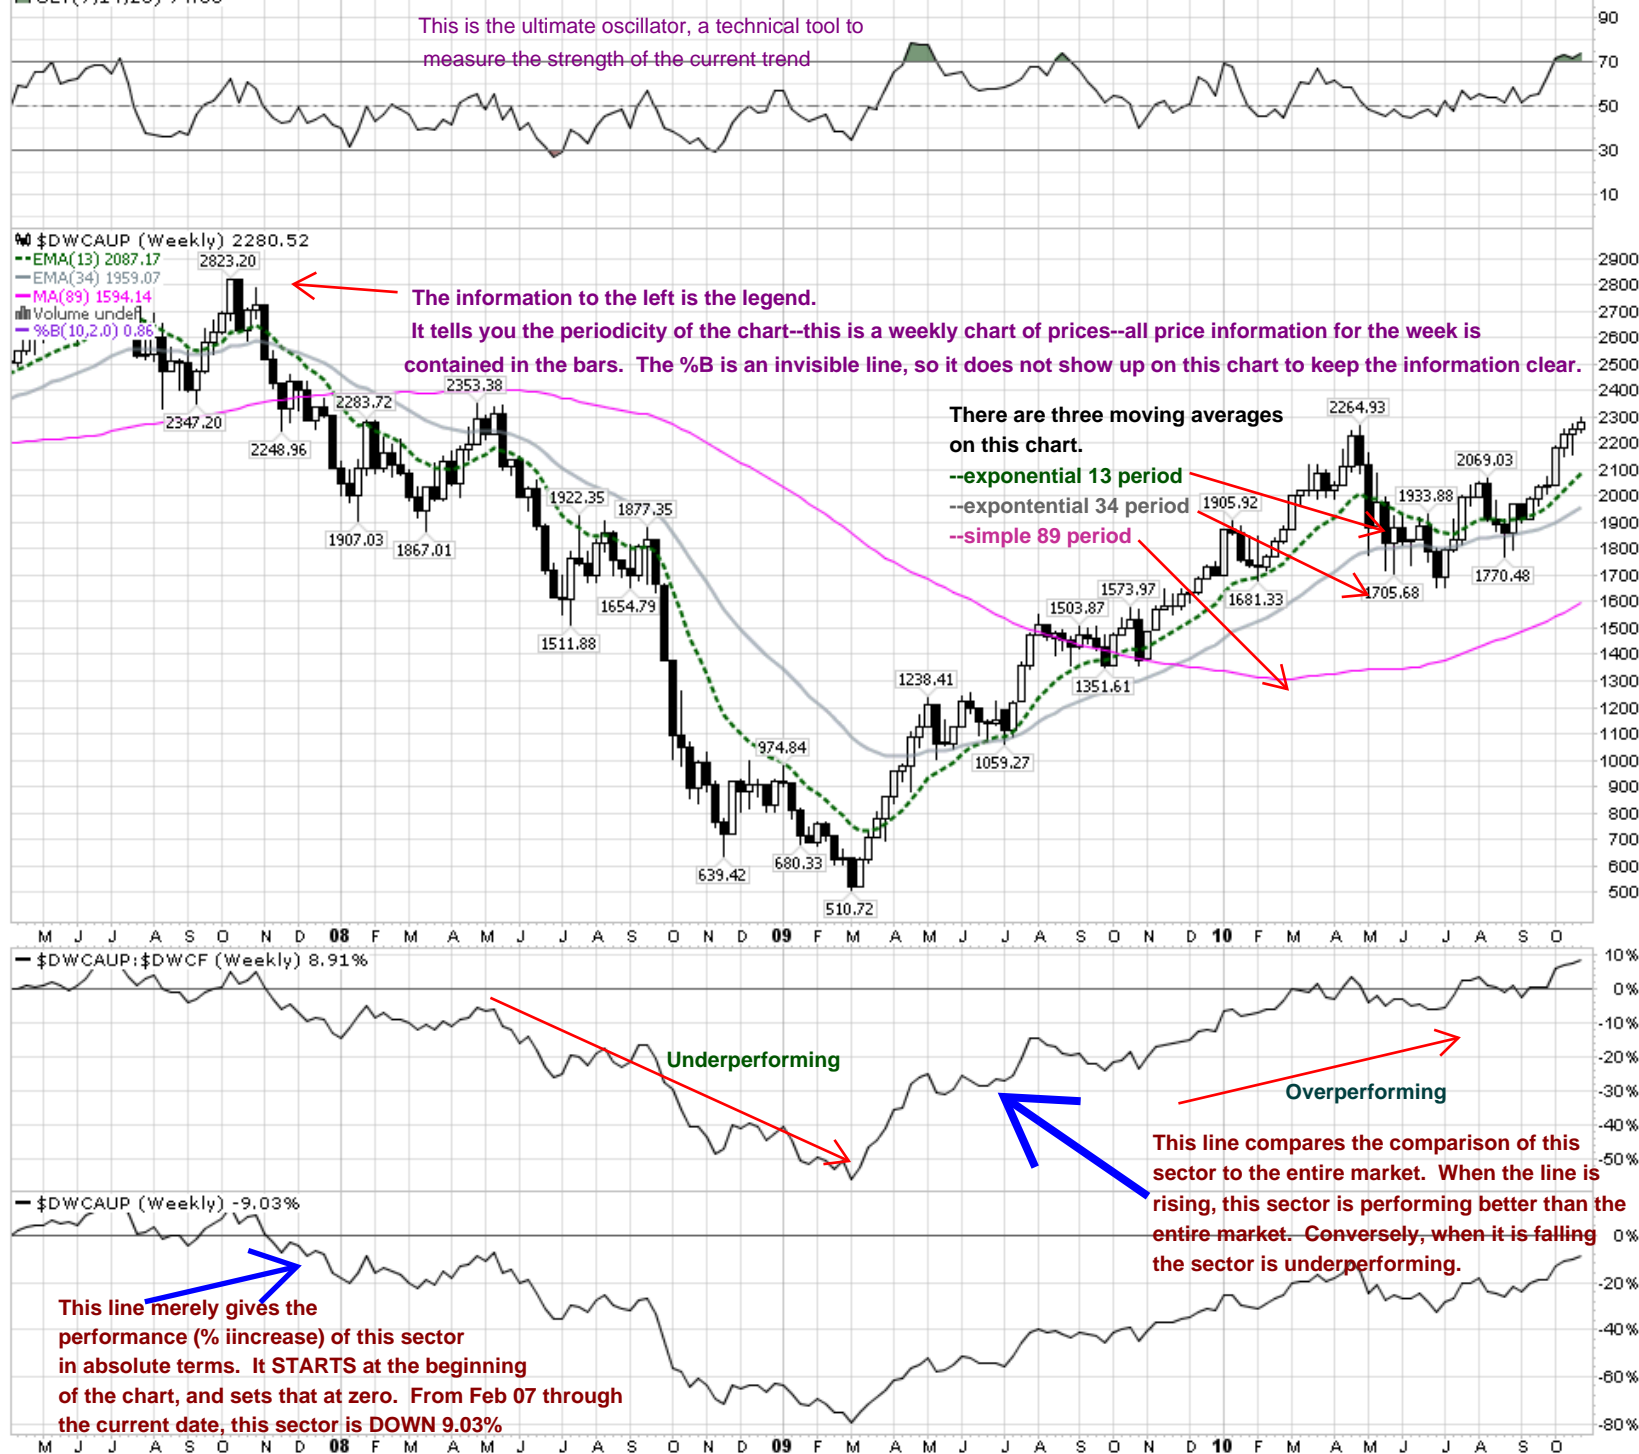

About these Sector Charts. . . I use these charts to find opportunities for long/short opportunities in various sectors. Since I was doing this for myself, it was easy enough to share (for free) with others. Preparing these weekly (though I suspended doing this for a few months which is why there is a multi month period v. weekly period) to share with others is part of MY discipline. I present this information as a tool for your tool kit to complement your own analysis of the markets. I hope that your reviewing them becomes part of YOUR discipline. I never make recommendations, but I do share my thinking. I always assume full responsibility for my trades—both the idiot and the savant ones. You should too. Feel free to e-mail me with questions or suggestions.
