

Technology Across the Curriculum

The Western Massachusetts Writing Project is offering a workshop that investigates the integration of technology and writing into the content areas, including writing, science, math and social studies. Come learn how podcasting, blogging, digital storytelling, social networking and other ideas can be used to challenge students, open up the world as a potential audience and collaborate with others.

Workshops

*Audiocasting Across the Curriculum – Digital Storytelling –
Connecting and Collaborating with the World*

Workshop will include:

- Opening address by Massachusetts Teacher of the Year **Mike Flynn**, on the value of video in the lower elementary classroom
- Hands-on workshops
- Collaboration and Networking
- Technology investigation

*3 PDPs are available
for participants*
