

## CHICAGO BULLS -CIRCLE ACTION-

**Figure 1:**

As (1) brings the ball over half court, (2) cuts across the floor and uses (4) to get open on the ball side wing. If (2) is open, (1) will hit (2). If not, (4) will come over and set a ball screen for (1) at the top of key. (1) will use the ball screen. As the ball screen action is happening, (5) goes to set a pin down screen for (3) who is reading the timing of the ball screen. After the ball screen, (4) follows behind (5) and screens for (3) who will receive a pass from (1). (3) will try to curl the screen and look to score or dump the ball off in the paint to (5).
