Vandy used this play and set against Kentucky last night. The set begins with #2 going over the top while #3 goes underneath as they replace one another. As this is occurring #4 cuts to the wing and receives a pass from #1. Once #4 has the ball #5 comes up and sets a high ball screen for him. If #5's defender is playing behind him he can choose to slip behind the defense and go to the basket instead. Assuming the screen is set #3 and #2 cut to the basket giving #4 the option to hit #5 on the pick and roll or hit #3 or #2 streaking to the basket.
